## OBJECTIVE

Results-driven Computer Engineer specializing in Information Technologies, with extensive experience in developing and managing web applications to streamline governmental services. Proven ability to replace traditional paper-based processes with efficient, functional digital solutions, including application forms, automated checks, streamlined processes, and improved communication. Proficient in a wide range of technologies including HTML, CSS, JavaScript, React.js, Node.js, ASP.NET, C#, VB.NET, Express.js, Oracle Databases, SQL Server Databases, and Oracle APEX. Adept at technical support, software and hardware maintenance, networking, and basic cybersecurity practices, including hands-on experience with Kali Linux and Python. Seeking to leverage my diverse skill set and technical expertise to contribute to innovative projects and drive success in a dynamic IT environment.

## SKILLS AND ABILITIES

### Web Development:

- Front-End: HTML, CSS, JavaScript, React.js, Bootstrap
- Back-End: Node.js, Express.js, ASP.NET, C#, VB.NET
- Frameworks & Libraries: React.js, Express.js
- UX/UI Design: User Experience (UX) and User Interface (UI) design principles

### Database Management:

- Oracle Databases
- SQL Server Databases
- MongoDB
- PostgreSQL
- Oracle APEX

### Server and Systems Management:

- Server infrastructure setup and management
- Information systems management

### Networking (Previous Experience):

- CCNA (Cisco Certified Network Associate)
- CCNP (Cisco Certified Network Professional)
- MikroTik (RouterOS)

Additional Skills:

**Cybersecurity:**

- Basic cybersecurity practices
- Kali Linux
- Python for scripting and automation

**AI Tools:**

- Proficient in using AI tools to optimize workflows, streamline processes, reduce operational time, and enhance outcomes.

**Software Proficiency:**

- Microsoft Office Suite (Word, Excel, PowerPoint, Outlook).

**Administrative Communication:**

- Excellent in administrative correspondence and official letters between government departments.
- Proficient in general communication.

**Soft Skills:**

- Problem-solving and critical thinking
- Effective communication and teamwork
- Time management and organizational skills

## EXPERIENCE

---

**Presidency of Council of Ministers / Foundation of Martyrs - IT Engineer and Web Applications Developer**

*2016 - Present*

- Developed and managed web applications to streamline governmental services.
- Implemented IT solutions to enhance operational efficiency.
- Utilized administrative skills to facilitate smooth inter-departmental coordination and project management.
- Negotiated with technical private companies to implement automation approaches and ensure quality assurance standards.

**KOREK Telecom - Warehouse Manager and Field Communications Engineer**

*2014 - 2017*

- Installed, maintained, and deployed GSM communication sites, rooftops, and ground fields.
- Managed inventory and logistics for telecommunications equipment.

## **EarthLink - Telecommunications**

*2012 - 2015*

- OMC Engineering in Southern Iraqi Province Backbone.
- Managed and maintained internet communications infrastructure.

## **IT Office for Internet Services**

*2009 - 2011*

- Installed and maintained software and hardware for internet services.
- Configured ISP networking setups and troubleshooting.

## **EDUCATION**

---

### **Al-Mansour University College**

*Baghdad, Iraq*

*Bachelor of Science in Computer Communications Engineering*

*Graduated: 2013*

### **Altinbas Kemerburgaz University**

*Istanbul, Turkey*

*Master of Science in Computer Engineering / Information Technologies*

*High Honor Student, GPA: 4.00*

*Graduated: 2023*

## **COMMUNICATION**

---

### **Effective Verbal Communication:**

- Skilled in delivering clear and concise information to diverse audiences, including technical and non-technical stakeholders.

### **Written Communication:**

- Proficient in drafting official documents, reports, and emails with clarity and professionalism.

### **Negotiation Skills:**

- Successfully negotiated with technical private companies to implement automation approaches and ensure quality assurance standards, enhancing operational efficiency.

### **Client Relations:**

- Established and maintained productive relationships with clients, ensuring satisfaction and meeting project requirements effectively.

## LEADERSHIP

---

### Team Leadership:

- Led teams in IT projects, overseeing tasks, timelines, and ensuring deliverables met high standards of quality.

### Project Management:

- Managed cross-functional teams to implement complex projects, achieving objectives on time and within budget.
- **Initiative Leadership:**
- Initiated and led process improvement initiatives, resulting in increased efficiency and cost savings.

### Mentorship and Coaching:

- Mentored junior team members, fostering their professional growth and development within the organization.

### Community Involvement:

- Acted as a leader in community or organizational settings, driving positive change and promoting collaboration.

### Strategic Decision-Making:

- Made strategic decisions that contributed to the overall success and growth of projects or departments.
